

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Aberdeen Standard SICAV I - Asian Bond Fund I Acc USD - LU1814411788

A sub-fund of Aberdeen Standard SICAV I which is a Société d'Investissement à Capital Variable (SICAV). Aberdeen Standard Investments Luxembourg S.A. is the Management Company.

Objectives and investment policy

To achieve a combination of income and growth by investing mainly in bonds (which are like loans that pay a fixed or variable rate of interest) issued by governments, companies and other large organisations in Asian countries. The bonds will be of any credit quality, as defined by international agencies that provide such ratings. The Fund is intended for investors who are willing to accept a high level of risk. Up to 50% of the Fund may be invested in bonds that typically have lower ratings, as defined by international agencies that provide such ratings; these may pay higher rates of interest than bonds with higher ratings. Less than 10% of the fund may be invested in a single issue of bonds issued by a government or a government-related body, and less than 5% may be invested in a single issue of bonds issued by a company. Less than 30% of the fund may be invested in Mainland Chinese bonds listed or traded on the Chinese Markets.

We may use investment techniques (including derivatives) to seek to protect and enhance the value of the Fund and to manage the Fund's risks. Derivatives, such as futures, options and swaps, are linked to the rise and fall of other assets. In other words, they "derive" their price from another asset. They can generate returns when share prices and/or indices fall.

Recommendation: This Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

The Fund is actively managed within its objective and is not constrained by a benchmark.

You can buy and sell shares in the Fund usually on any working day in Luxembourg, by 13.00 hours CET. Please refer to www.aberdeenstandard.com for details of any non-dealing days.

Income from investments in the Fund will be rolled up into the value of your shares.

Further information on the Fund's investment objective and policy can be found in the Fund's Prospectus.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

- This Fund is ranked at 3 because funds of this type have experienced low to medium rises and falls in value in the past.
- Please note that even the lowest risk class can lose you money and that extreme market circumstances can mean you suffer severe losses in all cases. The indicator does not take into account the following risks of investing in this Fund:
 - Investing globally can bring additional returns and diversify risk. However, currency exchange rate fluctuations may have a positive or negative impact on the value of your investment.
 - Bonds are affected by changes in interest rates, inflation and any decline in creditworthiness of the bond issuer. The fund's portfolio may have significant exposure to bonds that typically have lower ratings. Bonds that produce a higher level of income usually also carry greater risk as such bond issuers may not be able to pay the bond income as promised or could fail to repay the capital amount used to purchase the bond. Where a bond market has a low number of buyers and/or a high number of sellers, it may be harder to sell particular bonds at an anticipated price and/or in a timely manner.
 - Emerging markets or less developed countries may face more political, economic or structural challenges than developed countries. This may mean your money is at greater risk.
 - The Fund can use derivatives in order to meet its investment objectives or to protect from price and currency movements. This may result in gains or losses that are greater than the original amount invested.
 - Contingent convertible bonds can automatically convert into shares or be written down if the financial strength of the issuer falls in a certain way. This may result in substantial or total losses of the bond value.
 - The Fund may invest directly or indirectly in Chinese domestic securities markets via various channels, including the China Interbank Bond Market (CIBM), which may carry greater risks and, as a result, may incur additional costs and suffer losses.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

| | |
|--------------|-------|
| Entry charge | 0.00% |
| Exit charge | 0.00% |

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

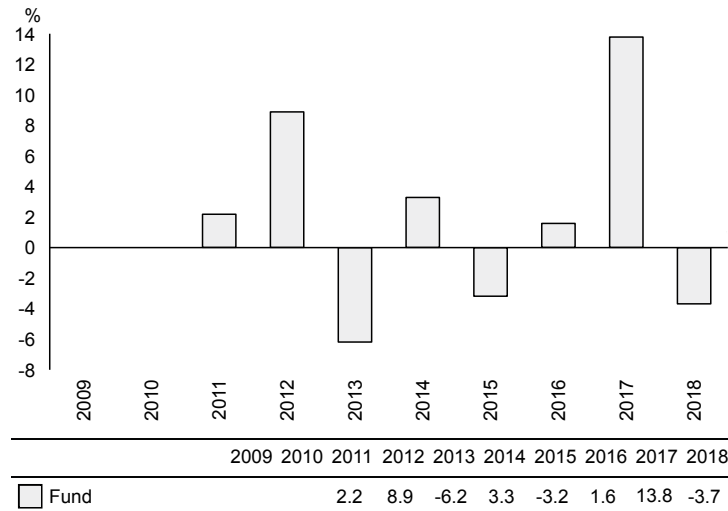

| | |
|-----------------|-------|
| Ongoing charges | 0.85% |
|-----------------|-------|

Charges taken from the Fund under specific conditions

| | |
|-----------------|-------|
| Performance fee | 0.00% |
|-----------------|-------|

- Switching charge (for switching into the Fund from another fund) 1.00%.
- The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- The ongoing charges figure shown here is an estimate of the charges. An estimate is used in order to provide the figure that will most likely be charged. The UCITS' annual report for each financial year will include detail on the exact charges made.
- In respect of the Entry charge, this charge may also be applied to switches.
- In respect of the Switching Charge, this is the current maximum charge that may be applied under the terms of the Prospectus. In some cases, you may pay less; you should speak to your financial adviser about this. For more information about charges, please refer to the Fund's Prospectus. The ongoing charge figure is as at 31/12/2018.

Past performance

Source: FE 2019

- You should be aware that past performance is not a guide to future performance.
- Fund launch date: 01/09/2006.
- Share/unit class launch date: 27/09/2010.
- Performance is calculated in USD.
- Performance is based on the Fund's net asset value at the end of each year, net of annual charges except for any initial charge.
- Performance prior to the launch date is based on the performance of Aberdeen Global II - Asian Bond Fund I-2 USD Acc - LU0513448125 which merged into this share class on 29/06/2018.
