Equity Trustees Fund Services Ltd is the Authorised Corporate Director of the Fund

For full investment objectives and policy details please refer to the prospectus.

- This Fund is ranked at 4 because funds of this type have experienced average rises and falls in value in the past.
- This Fund invests into other funds which themselves invest in assets such as bonds, company shares, cash and currencies. The objectives and risk profiles of these underlying funds may not be fully in line with those of this Fund.
- For funds investing globally, currency exchange rate fluctuations may have a positive or negative impact on the value of your investment.
- Bonds may be affected by changes in interest rates, inflation and any decline in creditworthiness of the bond issuer. If interest rates rise, the fixed income earned from bonds becomes less attractive to investors, so the demand for bonds may fall and their capital value may decrease. Bonds that produce a higher level of income usually also carry greater risk as such bond issuers may have difficulty in paying their debts.
- The Fund currently has a position in the LF Woodford Equity Income Fund which investors should be aware is currently suspended. The ACD does not believe that the holding materially impacts the overall liquidity of the Fund.
- For further risk information please refer to the prospectus.
