

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Scottish Widows Global Growth Fund Class G Accumulation

A sub-fund of the Scottish Widows Overseas Growth Investment Funds ICVC.
The Fund is managed by Scottish Widows Unit Trust Managers Ltd, part of the Lloyds Banking Group.
ISIN: GB00B7WCCL77

Objectives and investment policy

To achieve long term capital growth by investing predominantly in a portfolio of companies which are part of the MSCI World Index or the MSCI Emerging Markets Index (the "Indices"). The Fund seeks to deliver performance, before deduction of management fees, in excess of a blended return of the Indices, with a similar level of overall volatility, over the long term. Of the two Indices, the fund will invest almost exclusively in companies that are part of the MSCI World Index. The Fund may only take limited positions away from the Indices. This means there are limitations on the extent to which the Fund's investment in various sectors† may differ to the Index. These limited positions can be more than is held in the Index (overweight) or less than is held in the Index (underweight).

† A sector is a business area, industry or economy which shares the same characteristics. Company shares are typically grouped into different sectors depending on the company's business, for example travel and leisure or telecommunications.

Investors should aim to hold their investment in the Fund for the medium to long term (at least five to ten years).

Any Income received by the Fund is retained in the Fund and has the effect of increasing the share price.

The Fund is allowed to use derivatives (contracts which have a value linked to the price of another asset) for the following reasons, normally referred to as Efficient Portfolio Management (EPM):

*to help reduce risk,

*to help reduce cost,

*to help generate extra capital or income for the Fund with an acceptably low level of risk.

We calculate the value of the Fund at 8am daily on working days in the UK. Our dealing times are from 9am to 5pm each working day. Instructions received before 5pm will receive the next day's price.

The Fund may engage in securities lending, please refer to the prospectus for further details.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

- The Fund is ranked at 5 because it has experienced medium to high levels of volatility over the past 5 years.
- The value of your investment and any income from it is not guaranteed and can go up and down depending on investment performance. Specific investment risks for the Fund are:
 - Company shares ('equities') generally offer higher long term growth potential than some other asset classes. Values can fluctuate considerably. There's a greater risk you might not get back all of your money.
 - Exchange rate changes might cause the value of overseas investments and any income from them to go up and down.
 - Derivatives used for Efficient Portfolio Management may result in greater fluctuations of the value of the Fund, however it is not intended that this will cause the risk profile of the Fund to change.
- As the Fund invests predominantly in companies which are part of the MSCI World Index or the MSCI Emerging Markets Index, performance, before charges, may fall and rise with the Indices.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

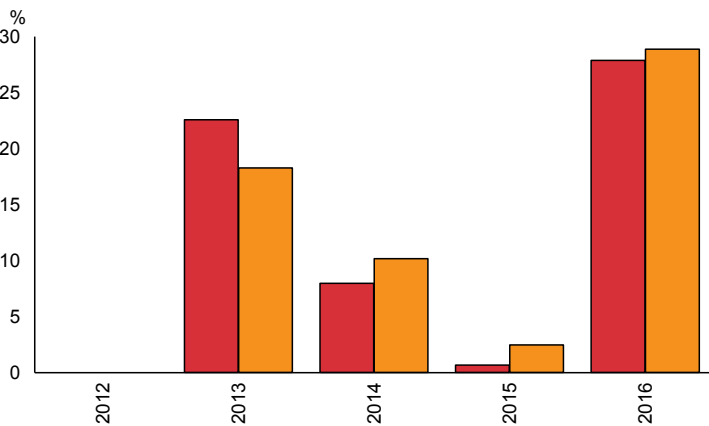

Ongoing charges	1.47%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- There is no charge to switch into this fund. You may incur an Exit Charge from the fund you are switching from. Please refer to the KII document for that fund.
- The Ongoing Charge figure is as at 11/16
- The Ongoing Charge is taken from the income of the Fund. For more information about charges, please refer to the Prospectus of Scottish Widows Overseas Growth Investment Funds, which is available at www.scottishwidows.co.uk/kiids
