

# Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Baillie Gifford Worldwide Diversified Return Yen Fund - Class C JPY Shares

Income Shares - ISIN IE00BZ18GP45

Baillie Gifford Worldwide Diversified Return Yen Fund ("the Fund") is a sub-fund of Baillie Gifford Worldwide Funds PLC (the Company). The Fund is managed by Baillie Gifford Investment Management (Europe) Limited.

## Objectives and investment policy

- Objective
- The Fund aims to provide capital growth over the long-term at a level of risk lower than investment in shares of companies.
- Policy
- To invest in a variety of asset classes, either directly or indirectly or through other funds.
  - The asset classes include, but are not limited to, shares, bonds, property, infrastructure, commodities, and currencies.
  - Investment may be in transferable securities (such as bonds and shares), other funds, derivatives, money market instruments, cash and near cash.
  - Currency forwards and derivatives, which are types of financial contracts, may be used to protect or increase the value of the Fund. This means the Fund is exposed to foreign currencies.
  - The Fund is actively managed and no index is used for the purposes of determining or constraining the composition of the Fund's portfolio. The Fund's performance (after deduction of costs) is measured against the Mutan Rate. The Fund seeks to materially outperform the benchmark.

### Other Information

- Bonds are a type of investment which can be issued by governments, companies and other organisations when they want to borrow money. The issuer of the bond owes the holder a debt. The issuer is obliged to pay interest and/or repay the debt at a later date.
- You can sell some or all of your shares on any day on which banks in Ireland are open for business by contacting the Transfer Agent by phone or post.
- Income will be re-invested. No further shares will be purchased but the reinvestment will be reflected in the price of your existing accumulation shares.
- For further explanation and information see the investment objective and policy section of the Prospectus, which is available by contacting us.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within five years.

## Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

- Market conditions can change rapidly and a fund in any rank can lose you your investment. The Fund is classified as above as it invests in a range of assets.
- As returns are not available for all of the past five years we've used the Fund's sector in their place to calculate the indicator.
- The indicator does not take into account the following relevant material risks.
- The Fund aims to limit losses in any short term period to a lower level than equities. Neither this nor positive returns are guaranteed.
- Bonds are affected by interest rates and inflation trends which may affect the value of the Fund. They could lose value if the issuer's financial health deteriorates.
- Derivatives can magnify losses if returns go down.
- Investing in China may harm your investment due to difficulties with market volatility, political and economic instability including the risk of market shutdown, trading, liquidity, settlement, corporate governance, regulation, legislation and taxation.
- In adverse market conditions it may be difficult to sell investments held by the fund in a timely manner and their value may fall significantly. This could affect how much money you receive and even delay the selling of your shares if dealing in the Fund is suspended.
- Custody of assets involves a risk of loss if a custodian becomes insolvent or breaches duties of care.
- You could lose your investment due to global factors like natural disasters, pandemics, or through developments such as military conflict, or changes in government policies.
- For a more detailed explanation of the risks, please see the "Risk Factors" section of the prospectus.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

### Charges taken from the Fund over a year

Ongoing charges	0.24%
-----------------	-------

### Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The ongoing charges figure is estimated because the share/unit class is new and has insufficient track record for us to calculate it exactly. The ongoing charges figure may vary from year to year and will exclude the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- The Fund's annual report for each financial year will include detail on the exact charges made.
- You can find further details about the charges in the fees and expenses section of the Prospectus, which is available at [www.bailliegifford.com](http://www.bailliegifford.com).

## Past performance

There is insufficient data to provide a useful indication of past performance to investors.

- Fund launch date: 01/10/2015.
- The share/unit class has not yet been launched.
- There can be no guarantee that the Fund's performance will match or exceed the performance of the benchmark.

## Practical information
