Baillie Gifford Worldwide European Growth Fund ("the Fund") is a sub-fund of Baillie Gifford Worldwide Funds PLC (the Company). The Fund is managed by Baillie Gifford Investment Management (Europe) Limited.

Objectives and investment policy

Objective

- The Fund aims to produce capital growth over the long term through investing primarily in the shares of companies in Europe (including Turkey but excluding the U.K.) which meet environmental, social and governance criteria and will exclude companies from certain industries and companies which are inconsistent with the United Nations Global Compact Principles for Business.

Policy

- The Fund will invest at least 90% in shares of companies in Europe while considering sustainability through indicators such as the long-term strategic direction and culture of a company, the capital allocation skill of management teams, and the level of alignment of interests of customers, employees and outside shareholders.
- Investments will be selected following the application of business activity-based exclusions and norms-based evaluation.
- Investments in companies that derive annual revenues above a particular level from tobacco, gambling, armaments, adult entertainment or fossil fuel extraction and production are not permitted. The Fund will comply with the Investment Managers policy on assessing breaches of the United Nations Global Compact Principles for Business.
- The Fund will be concentrated.
- The Fund is actively managed and no index is used for the purposes of determining or constraining the composition of the Fund's portfolio. The Fund's performance (after deduction of costs) is measured against the MSCI Europe ex UK Index. The Fund seeks to materially outperform the index.

Other Information

- You can sell some or all of your shares on any day on which banks in Ireland are open for business by contacting the Transfer Agent by phone or post.
- Income will be re-invested. No further shares will be purchased but the reinvestment will be reflected in the price of your existing accumulation shares.
- For further explanation and information see the investment objective and policy section of the Prospectus, which is available by contacting us.
- Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within five years.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

- Market conditions can change rapidly and a fund in any rank can lose you your investment. The Fund is classified as above as it invests in company shares.
- As returns are not available for all of the past five years we've used the comparative index in their place to calculate the indicator.
- The indicator does not take into account the following relevant material risks.
- Over shorter time periods the Fund's share price can be volatile and returns can be much higher or lower than our target. There is no guarantee this objective will be achieved over any time period.
- The Fund's ESG investment policy limits the type of companies it can hold. The Fund may have different returns from funds with no such restrictions.
- The limitations of third party data, which may be backward looking or estimated, may impact on the Funds ability to achieve any non-financial considerations.
- In adverse market conditions it may be difficult to sell investments held by the fund in a timely manner and their value may fall significantly. This could affect how much money you receive and even delay the selling of your shares if dealing in the Fund is suspended.
- Custody of assets involves a risk of loss if a custodian becomes insolvent or breaches duties of care.
- You could lose your investment due to global factors like natural disasters, pandemics, or through developments such as military conflict, or changes in government policies.
- For a more detailed explanation of the risks, please see the "Risk Factors" section of the prospectus.
