

Non-UCITS retail scheme Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

MI Brewin Dolphin Voyager Max 70% Equity Fund ("the Fund") A Accumulation Shares

This is a sub fund of MI Brewin Dolphin Voyager Funds. The Fund is a non-UCITS retail scheme Open Ended Investment Company. ISIN: GB00BLF9V059
Apex Fundrock Ltd is the Authorised Corporate Director of the Fund ("MI" and "MI Funds" are trading names of the ACD).

Objectives and investment policy

The Fund aims to provide an income stream and the opportunity for capital growth through an exposure to equities of up to 70%.

At least 80%, and potentially 100%, of the Fund's investments will be indirect through other funds. The other funds may be actively managed or may be passively managed (that is funds which track or are closely linked to the performance of an index) although it is not expected that more than 20% will be invested in passive funds at any one time.

Through its investments in these funds, the Fund will have a high exposure to equities. No more than 70% of the portfolio will be invested in company shares either directly or through equity funds whilst the remainder will be split between funds which seek exposure to bonds, cash and alternative investments (such as properties, commodities and infrastructure).

The Fund may also invest directly in equity like instruments (which may include shares in investment trusts and REITS), bonds, money market instruments, depositary receipts and cash.

Bonds are like loans that pay a fixed or variable rate of interest issued by governments, companies and other large organisations worldwide. They can be investment grade (meet a certain level of credit rating by a credit rating agency) or they may be unrated (and hence more likely to fail than investment grade bonds).

The Fund intends to invest at least 35% into funds managed by the ACD or sponsored by RBC Europe Limited.

The Fund may also make use of derivatives, which are sophisticated instruments whose value is linked to the rise and fall of other assets.

The Fund can use derivatives for the purposes of hedging and efficient portfolio management, with the aim of managing risk and cost.

Any income this share class generates will be reinvested to grow the value of your investment.

You can buy and sell shares on any business day in London.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

- The Fund is ranked 4 because funds of this type have experienced average rises and falls in value in the past. Please note that even the lowest risk class can lose you money and that extreme market circumstances can mean you suffer severe losses in all cases. The indicator does not take into account the following risks of investing in this Fund:
- Investing in other funds may expose investors to increased risk due to less strict regulations and the use of derivatives. These other funds can themselves invest into assets such as bonds, company shares, cash and currencies. The objectives and risk profiles of these underlying funds may not be fully in line with those of this Fund.
- The Fund may invest in bond funds which will be impacted by changes in interest rates, inflation and any decline in creditworthiness of the underlying bond issuers.
- Investing overseas can bring additional returns and spread risk to different markets. There are risks, however, that changes in currency exchange rates may cause the value of your investment to decrease or increase.
- The Fund may invest in property funds which can be less liquid than other asset classes.
- For further risk information please see the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	0.73%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- For the ongoing charge, the figure is as at 30 November 2024.
- The effective ongoing charges figure is 0.73%.
- The ongoing charges figure is capped at 0.36% for all expenses other than those expenses incurred by investment schemes held by the Fund.
- The ongoing charges figure, without the cap, would be 0.74%.
- You may also be charged a dilution levy on entry to or exit from the Fund, this is to cover costs associated with your transaction.
- For more information about charges, please see the prospectus.
