

Non-UCITS retail scheme Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

The Auk Fund Accumulation Shares [ISIN: GB00BSHWYW41] Income Shares [ISIN: GB00BSHWYX57]

The Authorised Corporate Director of the Fund is Evelyn Partners Fund Solutions Limited, part of the Evelyn Partners group.

Objectives and investment policy

The Fund aims to to preserve capital and achieve capital growth with some income over the long term (5 years plus).

The Fund is a multi-asset fund, meaning that it will have exposure to a wide range of asset classes. These may include shares in companies, fixed-interest securities (which may include government and corporate bonds, including investment grade and non-investment grade bonds), warrants, regulated funds (which may include schemes managed by the Investment Manager, or an affiliate of the Investment Manager), unregulated funds, commodities and property and, at times, gold (via physically backed exchange traded commodities), money market instruments, near cash assets and cash deposits.

The Fund may invest in any geographical area and any economic sector.

The Fund can invest more than 35% in government and other public securities issued by one issuer.

The Fund may use derivatives for Efficient Portfolio Management (EPM), i.e. to protect against market or currency movements, to reduce costs, or to earn income or capital.

Income Shares: Any income the Fund generates will be paid out to you.

Accumulation Shares: Any income the Fund generates will be reinvested.

You can buy and sell shares on the 14th day and the last Business Day of the month except where the 14th is not a Business Day when it shall be the Business Day after, or any other Business Day at the ACD's discretion, agreed with the Depositary.

The Fund is actively managed, which means that the manager has discretion over the composition of its portfolio, and the Fund is not tracking a benchmark nor is the Fund constrained by the value, price or components of a benchmark or any other aspect. The Fund is also not aiming to match or exceed the return of any benchmark.

For full investment objectives, policy details and risk factors, please refer to the prospectus.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

- The Fund is in a medium category because the price of its investments are expected to rise or fall to some extent. The category shown is not guaranteed to remain unchanged and may shift over time. Even the lowest category does not mean a risk-free investment.
- The price of the Fund and any income from it can go down as well as up and is not guaranteed. Investors may not get back the amount invested. Past performance is not a guide to future performance.
- Exposure to the risks associated with property investment, include but are not limited to, fluctuations in land prices, construction costs, interest rates, inflation and property yields, changes in taxation, legislation changes in landlord and tenant legislation, environmental factors, and changes in the supply and demand for property.
- Where the Fund invests in bonds, there is a risk the bond issuer may fail to meet its repayments. This is usually a greater risk for bonds that produce a higher level of income. Changes in interest rates, inflation and the creditworthiness of the bond issuer may also affect the bond's market value. Where the Fund invests in warrants, these may be hard to buy and sell and their prices may move up and down suddenly. This could significantly impact investment performance.
- Where the Fund invests into other investment funds, they may invest in different assets, countries or economic sectors and therefore have different risk profiles not in line with those of the Fund.
- The Fund is entitled to use derivative instruments for EPM and investment purposes. Derivatives may not achieve their intended purpose. Their prices may move up or down significantly over relatively short periods of time which may result in losses greater than the amount paid. This could adversely impact the value of the Fund. The organisation from which the Fund buys a derivative may fail to carry out its obligations, which could also cause losses to the Fund.
- The price of gold or other resources may be subject to sudden, unexpected and substantial fluctuations. This may lead to significant declines in the values of any companies developing these resources in which the Fund invests and significantly impact investment performance.
- The Fund may invest in securities not denominated in sterling, the value of your investments may be affected by changes in currency exchange rates. For full details on risk factors for this Fund, please refer to the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	8.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	1.19%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The ongoing charges figure is estimated because the share class has insufficient track record for us to calculate it exactly as at 14/02/2024. The ongoing charges figure may vary from year to year and will exclude the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- A dilution levy may be charged on a purchase or sale of shares in the Fund in some cases. It may be necessary to reduce the difference between the cost of buying or selling the Fund's investments and the Fund's mid-market share price. Any dilution levy charged will be paid into the Fund.
- The Fund's annual report for each financial year will include detail on the exact charges made.
- For further information about charges, please refer to relevant sections in the Fund's prospectus.
