

Non-UCITS retail scheme Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Gallatin Fund Accumulation Shares [ISIN: GB00BRBFFL86] Income Shares [ISIN: GB00BRBFFM93]

The Authorised Corporate Director of the Fund is Tutman Fund Solutions Limited, part of the Thesis group.

Objectives and investment policy

The investment objective of the Fund is to achieve long-term capital growth, with an investment time horizon of at least 7 years.

The Fund will gain exposure to a range of asset classes, in some or all world markets. Typically, the Fund will maintain, in normal market conditions, an exposure directly or indirectly to equities (being shares of companies) of at least 50% of the value of the portfolio.

At any one time, the Fund may be invested in any one or more of the following asset classes: equities, government and/or corporate bonds, cash/near cash, warrants and money market instruments. In addition, this can include alternatives such as private equity, hedge fund strategies, structured products, infrastructure, real estate and commodities, including gold.

Exposure to the various asset classes listed may be direct or indirect through collective investment schemes (including collective investment schemes managed by the ACD or its associates), closed-ended funds and exchange traded funds. However, exposure to private equity, infrastructure, real estate and commodities will always be indirect.

The Fund investment policy may mean that at times it may be appropriate for the Fund not to be fully invested but to hold cash or near cash. In light of extreme market conditions, the Investment Managers may raise or reduce the liquidity of the Fund from normal working levels within a band of 0% to 20%.

The Fund may use derivatives for Efficient Portfolio Management (EPM), i.e. to protect against market or currency movements, to reduce costs, or to earn income or capital.

Income Shares: Any income the Fund generates will be paid out to you. Accumulation Shares: Any income the Fund generates will be reinvested.

You can buy and sell shares on the 14th day of each month (provided that if such day is not a Business Day, the following business day) and the last Business Day of each month, or any other Business Day at the ACD's discretion, agreed with the Depositary.

The Fund is actively managed, which means that the manager has discretion over the composition of its portfolio, and the Fund is not tracking a benchmark nor is the Fund constrained by the value, price or components of a benchmark or any other aspect. The Fund is also not aiming to match or exceed the return of any benchmark.

For full investment objectives and policy details please refer to the prospectus.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

- The Fund is in a medium category because the price of its investments are expected to rise or fall to some extent. The category shown is not guaranteed to remain unchanged and may shift over time. Even the lowest category does not mean a risk-free investment.
- The price of the Fund and any income from it can go down as well as up and is not guaranteed. Investors may not get back the amount invested. Past performance is not a guide to future performance.
- Where the Fund invests into other investment funds, they may invest in different assets, countries or economic sectors and therefore have different risk profiles not in line with those of the Fund.
- Investment trusts and closed ended funds may borrow to purchase additional investments. This can increase returns when stock markets rise but will magnify losses when markets fall. The value of an investment trust or a closed-ended fund moves in line with stock market demand and its share price may be less than or more than the net value of the investments it holds.
- Where the Fund invests in structured products, there may be cases where the organisation from which we buy an asset (usually a financial institution such as a bank) fails to carry out its obligations, which could cause losses to the Fund.
- Where the Fund invests in bonds, there is a risk the bond issuer may fail to meet its repayments. This is usually a greater risk for bonds that produce a higher level of income. Changes in interest rates, inflation and the creditworthiness of the bond issuer may also affect the bond's market value.
- Where the Fund invests in warrants, these may be hard to buy and sell and their prices may move up and down suddenly. This could significantly impact investment performance.
- The Fund is entitled to use derivative instruments for EPM. Derivatives may not achieve their intended purpose. Their prices may move up or down significantly over relatively short periods of time which may result in losses greater than the amount paid. This could adversely impact the value of the Fund. The organisation from which the Fund buys a derivative may fail to carry out its obligations, which could also cause losses to the Fund.
- For full details on risk factors for this Fund, please refer to the prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	5.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	1.13%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The ongoing charges figure is estimated because the share class has insufficient track record for us to calculate it exactly as at 19/11/2025. The ongoing charges figure may vary from year to year and will exclude the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- A dilution levy may be charged on a purchase or sale of shares in the Fund in some cases. It may be necessary to reduce the difference between the cost of buying or selling the Fund's investments and the Fund's mid-market share price. Any dilution levy charged will be paid into the Fund.
- The Fund's annual report for each financial year will include detail on the exact charges made.
- For further information about charges, please refer to relevant sections in the Fund's prospectus.

Past performance

There is insufficient data to provide a useful indication of past performance to investors.

- Fund launch date: 19/11/2025.
- Share/unit class launch date: 19/11/2025.

Practical information

- The Depositary of the Fund is NatWest Trustee & Depositary Services Limited.
- You can get further information on the Fund, including how to buy and sell shares, from the prospectus and the latest annual and half-yearly reports and accounts, which are in English only. You can get copies of these free of charge, by telephoning 0141 483 9701.
- The latest share prices are available on www.trustnet.com or by telephoning 0141 483 9701.
- UK tax laws may impact your own tax position.
- Tutman Fund Solutions Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus for the non-UCITS.
- Other than the share classes mentioned in this document, no other share classes are currently available for this Fund. You can convert between share classes by writing to Transfer Agency, 177 Bothwell Street, Glasgow, G2 7ER.
- Details of the Thesis Group remuneration policy are available on <https://www.tutman.co.uk/remuneration-policy/> and a copy will be made available free of charge on request.
