

# Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## SVS AllianceBernstein Low Volatility Global Equity Fund Z Accumulation Shares GBP [ISIN: GB00BL4SFJ02]

The Fund is a sub-fund of SVS AllianceBernstein UK OEIC.

The Authorised Corporate Director of the Fund is Evelyn Partners Fund Solutions Limited trading as St Vincent St Fund Administration, part of the Evelyn Partners group.

### Objectives and investment policy

The Fund aims to achieve an increase in the value of its investment over a rolling 5 year period after the deduction of all fees, while aiming to have lower volatility than the broad global equity market, as represented by the MSCIWorld Index and reduce losses when global equity markets decline, through an actively managed, diversified portfolio of shares in global companies.

The Fund seeks to achieve its investment objective by investing at least 80% of the Fund's total value in shares of global companies. Investment can be direct, or indirectly in equity related securities. Indirect exposure may be achieved by investing up to 10% of the Fund's value in Collective Investment Schemes, which may include other funds managed by the Investment Manager or its affiliates. The Fund may also invest up to 20% of its value in moneymarket instruments, deposits, cash and near cash.

The Fund will invest in shares that the Investment Manager believes to have fundamentally lower volatility (measure of the ups and downs of performance) and less downside risks in the future. The Investment Manager uses its proprietary risk and return models as well as its judgment and experience in managing investment portfolios to construct a diversified portfolio with a balance of quality, stability and price.

The Fund will be diversified (investing in at least 30 companies) and the Investment Manager's investment decisions are not restricted to any specific market, region, industry sector or company size.

The Investment Manager will include, as part of its overall investment process, Environmental, Social, and Governance ("ESG") factors when considering whether or not to invest in or sell particular shares. The Investment Manager is not restricted by the investment policy from holding a particular company, unless the company is identified in accordance with the Fund's Exclusion Policy as stated in the prospectus.

The Investment Manager engages with companies as part of their fundamental research process and take an active stewardship role by engaging with companies and actively voting in relation to shares held by the Fund once it has invested.

Any income the Fund generates will be re-invested. You can buy and sell shares Monday to Fridays excluding UK public and bank holidays or any day that is a New York Stock Exchange holiday.

The Fund may also use derivatives for investment, efficient portfolio management or hedging purposes.

The Fund is actively managed, which means that the manager has discretion over the composition of its portfolio, and the Fund is not tracking a benchmark nor is the Fund constrained by the value, price or components of a benchmark or any other aspect. The Fund is also not aiming to match or exceed the return of any benchmark.

### Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,  
lower risk

Typically higher rewards,  
higher risk

- The Fund is in a higher category because the price of its investments have risen or fallen frequently and more dramatically than some other types of investment. The category shown is not guaranteed to remain unchanged and may shift over time. Even the lowest category does not mean a risk-free investment.
- The price of the Fund and any income from it can go down as well as up and is not guaranteed. Investors may not get back the amount invested. Past performance is not a guide to future performance.
- Equity Securities: Equities can lose value rapidly, and typically involve higher market risks than bonds, money market instruments or other debt instruments. Fluctuation in value may occur in response to activities of individual companies, the general market, economic conditions, or changes in currency exchange rates.
- Concentration: In certain conditions the Fund may invest in a relatively small number of securities, which may result in portfolio concentration in sectors, countries, or other groupings. These potential concentrations mean that a loss arising in a single investment may cause a proportionately greater loss in the Fund than if a larger number of investments were made.
- Liquidity: There is a risk that adverse market conditions may affect the Fund's ability to sell assets at the price the Fund would like, or the Fund may have to sell them at a loss.
- Currency: To the extent that a Fund holds assets that are denominated in currencies other than the base currency, any changes in currency exchange rates could reduce investment gains or income, or increase investment losses.
- Country: In certain countries, there are risks associated with custody and counterparties that are higher than in developed countries.
- ESG Investing: The Fund may use certain ESG criteria in their investment strategies. This may limit the types and number of investment opportunities available and, as a result, the Fund may underperform in relation to other funds that do not have an ESG focus.
- For full investment objectives and policy details and risk factors for this Fund, please refer to the Prospectus.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

### Charges taken from the Fund over a year

Ongoing charges	0.10%
-----------------	-------

### Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The ongoing charges figure is estimated due to a change in fee structure on 24/08/2024. As such the previous ongoing charges calculation no longer offers a reliable indication of the charges that the Fund is exposed to. The ongoing charges figure may vary from year to year and will exclude the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- A dilution adjustment may be applied to adjust the price of shares, as it may be necessary to reduce the difference between the cost of buying or selling the Fund's investments and the Fund's mid-market share price.
- The Fund's annual report for each financial year will include detail on the exact charges made.
- For further information about charges, please refer to relevant sections in the Fund's Prospectus.

## Past performance

	2020	2021	2022	2023	2024
Fund		23.1	0.1	13.6	19.9
Index*		22.9	-7.8	16.8	20.8

Source: FE fundinfo 2025

- You should be aware that past performance is not a guide to future performance.
- Fund launch date: 11/03/2020.
- Share/unit class launch date: 11/03/2020.
- Performance is calculated in GBP.
- On 24/08/2024 the Fund's name changed from ES AllianceBernstein Low Volatility Global Equity Fund to SVS AllianceBernstein Low Volatility Global Equity Fund.
- All charges and fees, except any entry, exit or switching charges, have been included within the performance calculation.
- In order to limit volatility and reduce losses when markets decline, the Investment Manager selects investments with a balance of quality, stability and price. As a result, the Investment Manager anticipates the Fund achieving upside capture of 90% versus the broad market, as measurable by the MSCI World Index, and downside capture of 70%. The Fund may deliver upside/downside capture above or below these values. The Investment Manager may present upside and downside capture of the Fund versus the MSCI World Index.
- The Fund is not managed to target or exceed the performance of any specific benchmark, nor are the Investment Manager's investment decisions constrained by any benchmark. However, the ACD welcomes investors to compare the Fund's performance by comparison to the MSCI World Index.
- \* MSCI World

## Practical information

- The Depositary of the Fund is State Street Trustees Limited.
