

Non-UCITS retail scheme Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

White Oak Fund Accumulation Shares [ISIN: GB00BMWVSC25] Income Shares [ISIN: GB00BMWVSD32]

The Authorised Corporate Director of the Fund is Evelyn Partners Fund Solutions Limited, part of the Evelyn Partners group.

Objectives and investment policy

The Fund aims to provide a mix of capital appreciation and income over the long term (5 years plus) through investment in a multi asset portfolio, in some or all world markets, typically with a bias towards equities.

The Fund may invest direct or indirect through collective investment schemes (including collective investment schemes managed by the ACD or its associates) in:

- shares
- transferable securities (including but not limited to shares and bonds issued by governments and other organisations)
- cash, deposits, and money market instruments

The Fund may also invest indirectly through exchange-traded funds, closed-ended funds and collective investment schemes:

- private equities
- property
- commodities

The Fund may use derivatives and forward transactions for Efficient Portfolio Management (EPM), i.e. to protect against market or currency movements, to reduce costs, or to earn income or capital.

Income Shares: Any income the Fund generates will be paid out to you.

Accumulation Shares: Any income the Fund generates will be reinvested.

You can buy and sell shares on the 14th day of each month (provided that if such day is not a business day, the next following business day) and the last business day of each month.

The Fund is actively managed, which means that the manager has discretion over the composition of its portfolio, and the Fund is not tracking a benchmark nor is the Fund constrained by the value, price or components of a benchmark or any other aspect. The Fund is also not aiming to match or exceed the return of any benchmark.

For full investment objectives and policy details please refer to the prospectus.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

- The Fund is in a higher category because the price of its investments have risen or fallen frequently and more dramatically than some other types of investment. The category shown is not guaranteed to remain unchanged and may shift over time. Even the lowest category does not mean a risk-free investment.
- The price of the Fund and any income from it can go down as well as up and is not guaranteed. Investors may not get back the amount invested. Past performance is not a guide to future performance.
- Where the Fund invests in bonds, there is a risk the bond issuer may fail to meet its repayments. This is usually a greater risk for bonds that produce a higher level of income. Changes in interest rates, inflation and the creditworthiness of the bond issuer may also affect the bond's market value.
- Where the Fund invests into other investment funds, they may invest in different assets, countries or economic sectors and therefore have different risk profiles not in line with those of the Fund.
- The Fund is entitled to use derivative instruments for EPM. Derivatives may not achieve their intended purpose. Their prices may move up or down significantly over relatively short periods of time which may result in losses greater than the amount paid. This could adversely impact the value of the Fund.
- The organisation from which the Fund buys a derivative may fail to carry out its obligations, which could also cause losses to the Fund.
- The Fund may invest in securities not denominated in sterling, the value of your investments may be affected by changes in currency exchange rates.
- For full details on risk factors for this Fund, please refer to the prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	7.50%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	1.29%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- The ongoing charges figure is a representation of the charges taken from the Fund over a year. The estimated ongoing charge of 1.29% is based on the current Annual Management Charge (AMC) of 0.79%. Should the maximum AMC of 1.50% be charged in future, the estimated ongoing charges figure would be 2.00%.
- Previously, the Ongoing Charges Figure (OCF) included expenses incurred by underlying holdings of collective investment schemes in relation to the Fund (the synthetic OCF). Following guidance issued by the Investment Association on 2 July 2020, the synthetic OCF calculation has been expanded to include investment trusts.
- A dilution levy may be charged on a purchase or sale of shares in the Fund in some cases. It may be necessary to reduce the difference between the cost of buying or selling the Fund's investments and the Fund's mid-market share price. Any dilution levy charged will be paid into the Fund.
- The Fund's annual report for each financial year will include detail on the exact charges made.
- The ongoing charges figure is for the year ending 31/03/2023.
- For further information about charges, please refer to relevant sections in the Fund's prospectus.

Past performance
