

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

SVS WAM Growth Fund R Accumulation Shares [ISIN: GB00BMFN1715] R Income Shares [ISIN: GB00BMFPMQ32]

The Fund is a sub-fund of SVS WAM Investment Funds.
The Authorised Corporate Director of the Fund is Evelyn Partners Fund Solutions Limited, part of the Evelyn Partners group.

Objectives and investment policy

The Fund aims to generate capital growth over the long term (at least 5 years).

The Fund is actively managed and at least 70% of its assets will provide exposure to shares of companies worldwide.

The Fund will achieve this exposure by investing mainly indirectly via collective investment schemes, however, up to 20% of the Fund's allocation to shares will be achieved by investing directly.

The Investment Manager selects companies or collective investment schemes that invest in companies, that it considers have good prospects for share price growth from any economic sector, industry or geographic region and of any market capitalisation,

To the extent the Fund is not fully invested as set out above, the Fund will invest in money market instruments, treasury bills, government bonds, fixed income UCITS funds, exchange traded funds, deposits, cash and near cash

Income Shares: Any income the Fund generates will be paid out to you.

Accumulation Shares: Any income the Fund generates will be reinvested.

You can buy and sell shares Monday to Fridays excluding UK public and bank holidays.

The Fund may use derivatives for efficient portfolio management (EPM), i.e to protect against market or currency movements, to reduce cost or to earn income or capital.

The Fund is actively managed, which means that the manager has discretion over the composition of its portfolio, and the Fund is not tracking a benchmark nor is the Fund constrained by the value, price or components of a benchmark or any other aspect. The Fund is also not aiming to match or exceed the return of any benchmark.

For full investment objectives and policy details please refer to the prospectus.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

- The Fund is in a higher category because the price of its investments have risen and fallen frequently and more dramatically than some other types of investment. The category shown is not guaranteed to remain unchanged and may shift over time. Even the lowest category does not mean a risk-free investment.
- The price of the Fund and any income from it can go down as well as up and is not guaranteed. Investors may not get back the amount invested. Past performance is not a guide to future performance.
- Where the Fund invests in bonds, there is a risk the bond issuer may fail to meet its repayments. This is usually a greater risk for bonds that produce a higher level of income. Changes in interest rates, inflation and the creditworthiness of the bond issuer may also affect the bond's market value.
- Investment trusts and closed ended funds may borrow to purchase additional investments. This can increase returns when stock markets rise but will magnify losses when markets fall. The value of an investment trust or a closed-ended fund moves in line with stock market demand and its share price may be less than or more than the net value of the investments it holds.
- Where the Fund invests into other investment funds, they may invest in different assets, countries or economic sectors and therefore have different risk profiles not in line with those of the Fund.
- The Fund is entitled to use derivative instruments for EPM. Derivatives may not achieve their intended purpose. Their prices may move up or down significantly over relatively short periods of time which may result in losses greater than the amount paid. This could adversely impact the value of the Fund.
- The organisation from which the Fund buys a derivative may fail to carry out its obligations, which could also cause losses to the Fund.
- For full details on risk factors for this Fund, please refer to the prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	1.56%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- Previously, the Ongoing Charges Figure (OCF) included expenses incurred by a Fund on any investments in collective investment schemes and closed ended vehicles such as investment trusts (the synthetic OCF). Following guidance issued by the Investment Association on 30 November 2023, any synthetic OCF now excludes the expenses of closed ended vehicles.
- The ongoing charges figure is capped at 1.75%, however is currently 1.56%.
- A dilution levy may be charged on a purchase or sale of shares in the Fund in some cases. It may be necessary to reduce the difference between the cost of buying or selling the Fund's investments and the Fund's mid-market share price. Any dilution levy charged will be paid into the Fund.
- The Fund's annual report for each financial year will include detail on the exact charges made.
- The ongoing charges figure is for the year ending 31/12/2023.
- For further information about charges, please refer to relevant sections in the Fund's Prospectus.

Past performance

Source: FE fundinfo 2024

- You should be aware that past performance is not a guide to future performance.
- Fund launch date: 01/12/2022.
- Share/unit class launch date: 01/12/2022.
- Performance is calculated in GBP.
- On 11/03/2024 the Fund's name changed from SVS WAM Global Growth Fund to SVS WAM Growth Fund.
