

Non-UCITS retail scheme Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Scottish Widows High Income Bond Fund Class A Accumulation

A sub-fund of the Scottish Widows Investment Solutions Funds ICVC.
The Fund is managed by Scottish Widows Unit Trust Managers Ltd, part of the Lloyds Banking Group.
ISIN: GB00BKYZ014

Objectives and investment policy

To provide a high level of income and the potential for capital growth by investing in non-investment grade corporate bonds* and other fixed interest securities denominated in Euros, Sterling or US Dollars.

The Fund is actively managed by the Fund Manager who chooses investments with the aim of outperforming the Bloomberg Barclays Global High Yield Index hedged back to Sterling Index by 1.5%** per annum on a rolling 3 year basis, before deduction of fees. At least 80% of the Fund will invest in non-investment grade corporate bonds* denominated in Euros, Sterling or US Dollars. The Fund may also invest in government bonds, investment grade corporate bonds, supranational bonds (these are a type of security issued by two or more governmental organisations), covered bonds, emerging market bonds and asset backed securities such as securitised loans denominated in Euros, Sterling or US Dollars. Additionally the Fund may invest in cash and cash like investments. Investment in the asset classes will be direct, and indirect using derivatives as an additional way for the Fund to invest with the aim of meeting the Fund's investment objective. The extent of derivative use for investment purposes is dependent on market conditions and will be limited as the intention is that this should not change the risk profile of the Fund. Derivatives and stock lending may be used for the purpose of managing the Fund in a way that is designed to reduce risk (for example by hedging) or cost and/or generate extra income or growth (often referred to as efficient portfolio management). The Fund's investments may be hedged to achieve the currency exposure that reflects the currency composition of the Index. Hedging involves the use of derivatives to offset the effect of currency exchange rates. The Fund Manager is limited in the extent to which positions can vary to those of the Index. The limits help to provide a balance between the spread of assets within the Fund and risk management. They also provide a balance between the amount the Fund can vary from the Index and providing the Fund Manager with flexibility to seek to outperform the Index. As a result the Fund's performance may differ from the Index.

*Credit ratings indicate the likelihood that an issuer will be able to make their payments. Investment grade bonds have achieved or exceeded a minimum credit rating awarded by a credit rating agency. Therefore they are considered lower risk than bonds with a lower credit rating. Non-investment grade bonds, also known as high yield bonds, have a lower credit rating than investment grade bonds, and so are considered higher risk.

** Note: there are Share Classes in the Fund where fees may exceed the Fund's outperformance target relative to the Index. For those Share Classes, the Fund may underperform the Index after deduction of fees even if its outperformance target is achieved.

The Bloomberg Barclays Global High Yield Index hedged back to Sterling Index has been selected as an appropriate benchmark as it provides a representation of the returns of securities in the high yield bond market. Investors should aim to hold their investment in the Fund for the medium to long term (at least five to ten years). Any Income received by the Fund is retained in the Fund and has the effect of increasing the share price. We calculate the value of the Fund at 2pm daily on working days in the UK and the USA. Instructions received before 12pm will receive the price calculated on that day. Instructions received after 12pm will receive the price calculated on the next working day.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

- As this fund has been available for less than 5 years, we have used simulated historical data for the part of the 5 year period before the fund began. The Fund is ranked at 4 because, based on simulated data, it has experienced medium levels of volatility over the past 5 years.
- The value of your investment and any income from it is not guaranteed and can go up and down depending on investment performance. Specific investment risks for the Fund are:
- The value of a bond / fixed interest security could fall if the issuer's credit rating falls. Values are also likely to fall if interest rates rise (but increase when interest rates fall). In addition issuers might fail to make their income payments and/or repay capital.
- Exchange rate changes might cause the value of overseas investments and any income from them to go up and down.
- The fund invests in non-investment grade bonds / securities, which carry increased risks that the issuers might have their credit rating cut or might not be able to make their payments.
- Over 35% of this fund can be invested in fixed interest government or public securities from a single issuer, which increases the risk to the fund if the issuer is unable to make their payments.
- Using derivatives for investment purposes is not intended to increase the Fund's risk profile, but may increase volatility. Derivative strategies could increase or reduce the impact of market movements which has the potential to result in greater losses, or gains, to the Fund.
- The use of derivatives for Efficient Portfolio Management might not achieve the described outcomes and may result in greater fluctuations of the value of the Fund, however it is not intended that this will cause the risk profile of the Fund to change.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

| | |
|--------------|-------|
| Entry charge | 0.00% |
| Exit charge | 0.00% |

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

| | |
|-----------------|-------|
| Ongoing charges | 1.07% |
|-----------------|-------|

Charges taken from the Fund under specific conditions

| | |
|-----------------|------|
| Performance fee | NONE |
|-----------------|------|

- The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- The NURS' annual report for each financial year will include detail on the exact charges made.
- There is no charge to switch into this fund. You may incur an Exit Charge from the fund you are switching from. Please refer to the KII document for that fund.
- The Annual management charge (AMC) reduced from 1.50% to 1.00% on 21/06/2021. The ongoing charges will include periods of the higher and lower AMC in the calculation. The annual report for each financial year will include detail on the exact charges made.
- Part or all of the Ongoing Charge is taken from the Fund's capital. For more information about charges, please refer to the Prospectus of Scottish Widows Investment Solutions Funds ICVC, which is available at www.scottishwidows.co.uk/kiids

Past performance

Source: FE fundinfo 2022

- You should be aware that past performance is not a guide to future performance.
- Fund launch date: 05/10/2020.
- Share/unit class launch date: 05/10/2020.
- Performance is calculated in GBP.
- Performance is net of charges (excluding Entry Charge).
- The Index plus outperformance target and the Fund performance figures are shown on an annual basis.
- In practice, as explained in the 'Objective and investment policy' section, the Fund Manager's outperformance target applies over rolling 3 year periods.
- In addition, the Index plus outperformance target is calculated without deduction of charges whereas fund performance is calculated after deduction of charges.
- As a result of changes to legislation following the introduction of the Personal Savings Allowance, we have reclassified net share classes to gross (of income tax), effective from February 2017. All interest distributions will be paid gross of income tax from 6 April 2017.
- * Benchmark 1 – Bloomberg Global High Yield Hedged GBP + 1.5%

Practical information

- The Investment Adviser to the Fund is Schroders Investment Management Limited.
- The depositary for the Fund is State Street Trustees Limited.
- The Fund prices are available from www.scottishwidows.co.uk
- The tax regime applicable is that of the United Kingdom and may have an impact on your tax position.
- Scottish Widows Unit Trust Managers may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the prospectus for the Fund.
- Scottish Widows Investment Solutions Funds ICVC is a Non-UCITS retail scheme (NURS) with a number of different funds. This KIID describes a single fund of the NURS. The Prospectus and Report and Accounts are prepared for the entire NURS and are available in English and free of charge at www.scottishwidows.co.uk
- Further details can be found in the Supplementary Investor Information Document for the Scottish Widows OEIC and ISA funds.
- You can make switches into other shares or funds. See "Switching" in the Prospectus.
- Scottish Widows Investment Solutions Funds ICVC has a number of different funds. The assets and liabilities of each fund are segregated by law. Therefore, the assets of this fund belong exclusively to it and are not available to meet the liabilities of any other fund of the Scottish Widows Investment Solutions Funds ICVC.
- Details of our remuneration policy, which includes a description of how remuneration and benefits are calculated, the identities of the persons responsible for awarding remuneration and benefits and the composition of the remuneration committee can be found here – <http://reference.scottishwidows.co.uk/docs/groupremun.pdf>. A paper copy is available free of charge upon request.
