

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Scottish Widows Environmental Investor Fund Class A Accumulation

A sub-fund of the Scottish Widows UK and Income Investment Funds ICVC.
The Fund is managed by Scottish Widows Unit Trust Managers Ltd, part of the Lloyds Banking Group.
ISIN: GB0031632010

Objectives and investment policy

To provide capital growth by investing in companies which show a commitment to the protection and preservation of the natural environment. The Fund is actively managed by the Fund Manager who chooses investments with the aim of outperforming the FTSE All-Share Index (the "Index") by 3% per annum on a rolling 3 year basis before deduction of fees. At least 80% of the Fund will invest in shares of UK companies, with up to 20% in international companies. Scottish Widows Unit Trust Managers defines screens for UK and International equity markets to prevent investment in specific companies or industry sectors* that are harmful to the environment. The Fund Manager, in selecting investments it believes provide attractive capital growth, will seek a mix of investment in companies whose specific products and services directly support or provide positive environmental outcomes or benefits, together with companies from any industry sector which, in the Fund Manager's opinion, demonstrate high standards regarding sustainable environmental practice.

In seeking companies whose products and services support positive environmental outcomes the Fund Manager will look to invest in:

- Energy Transition: Companies whose technologies contribute to or assist the transition to Low Carbon energy;
- Environmental Infrastructure: Companies that finance, build or operate energy infrastructure such as wind or solar farms;
- Environmental Industry: Companies whose products or services reduce the environmental impact of industrial activity;
- Low Carbon Consumer: Companies that enable consumers to live more sustainably;
- Circular Economy: Companies involved in the use of, or investment in, recycling technologies and waste management.

Companies which demonstrate high standards regarding sustainable environmental practice may include those which:

- Have responsible sourcing of sustainable resources;
- Promote environmentally responsible behaviour such as recycling;
- Have net zero carbon commitments.

The Fund will not invest in companies which: own reserves in; extract; produce; supply; generate; or receive revenue from fossil fuels. This includes thermal coal, gas, oil and tar-sands. It will also not invest in companies which receive revenue from nuclear energy including nuclear uranium mining, and the production and use of controversial weapons. The Fund retains a level of portfolio diversification and risk management by investing typically in 30 to 60 holdings across different sectors* of the Index and in different market sizes. As a result the Fund's performance may differ substantially from the Index.

*A sector is a business area, industry or economy which shares the same characteristics. Company shares are typically grouped into different sectors depending on the company's business.

The FTSE All-Share Index has been selected as an appropriate benchmark as it provides a representation of the returns of securities in the UK equity market. The Fund Manager selects shares that meet the Fund's environmental criteria from a diverse range of UK shares including those outside of the FTSE All-Share Index. Derivatives and stock lending may be used for the purpose of managing the Fund in a way that is designed to reduce risk or cost and/or generate extra income or growth (often referred to as efficient portfolio management).

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

- The Fund is ranked at 6 because it has experienced high levels of volatility over the past 5 years.
- The value of your investment and any income from it is not guaranteed and can go up and down depending on investment performance. Specific investment risks for the Fund are:
 - Company shares ('equities') generally offer higher long term growth potential than some other asset classes. Values can fluctuate considerably. There's a greater risk you might not get back all of your money.
 - Investing in a limited number of company shares can carry more investment risk than in a wider portfolio. If any of these investments fall or rise in value, it may have a greater effect on a fund's overall value than if a larger number of investments were held.
 - The use of derivatives for Efficient Portfolio Management might not achieve the described outcomes and may result in greater fluctuations of the value of the Fund, however it is not intended that this will cause the risk profile of the Fund to change.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	1.08%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- There is no charge to switch into this fund. You may incur an Exit Charge from the fund you are switching from. Please refer to the KII document for that fund.
- The Ongoing Charge figure is as at 02/22
- The Annual management charge (AMC) reduced from 1.50% to 1.00% on 21/06/2021. The ongoing charges will include periods of the higher and lower AMC in the calculation. The annual report for each financial year will include detail on the exact charges made.
- The Ongoing Charge is taken from the income of the Fund. For more information about charges, please refer to the Prospectus of Scottish Widows UK and Income Investment Funds ICVC, which is available at www.scottishwidows.co.uk/kiids
- Investors should aim to hold their investment in the Fund for the medium to long term (at least five to ten years). Any Income received by the Fund is retained in the Fund and has the effect of increasing the share price.

Past performance

- You should be aware that past performance is not a guide to future performance.
- Fund launch date: 29/06/1989.
- Share/unit class launch date: 29/06/1989.
- Performance is calculated in GBP.
- Performance is net of charges (excluding Entry Charge) and net of tax.
- The Index plus outperformance target and the Fund performance figures are shown on an annual basis.
- In practice, as explained in the 'Objective and investment policy' section, the Fund Manager's outperformance target applies over rolling 3 year periods.
- In addition, the Index plus outperformance target is calculated without deduction of charges whereas fund performance is calculated after deduction of charges.
- * Benchmark 1 – FTSE All Share + 3%
