

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Scottish Widows Global Select Growth Fund Class A Accumulation

A sub-fund of the Scottish Widows Overseas Growth Investment Funds ICVC.
The Fund is managed by Scottish Widows Unit Trust Managers Ltd, part of the Lloyds Banking Group.
ISIN: GB0031629305

Objectives and investment policy

To give capital growth by investing in a limited portfolio of company shares in any geographical area, including the UK. Typically the Fund will be invested in 40 to 90 holdings.

The Fund is actively managed by the Investment Adviser who chooses investments with the aim of outperforming the MSCI All Country World Index (MSCI ACWI) by 3% per annum on a rolling 3 year basis, before deduction of fees.

At least 90% of the Fund will invest in global shares.

The Investment Adviser is limited in the extent to which positions can vary to those of the Index. The limits help to provide a balance between the spread of assets within the fund and risk management. They also provide a balance between the amount the Fund can vary from the Index and providing the Investment Adviser with flexibility to seek to outperform the Index. As a result the Fund's performance may differ substantially from the Index.

The MSCI ACWI Index has been selected as an appropriate benchmark as it provides a representation of the returns of securities in the global equities market.

Investors should aim to hold their investment in the Fund for the medium to long term (at least five to ten years).

Any Income received by the Fund is retained in the Fund and has the effect of increasing the share price.

Derivatives and stock lending may be used for the purpose of managing the Fund in a way that is designed to reduce risk or cost and/or generate extra income or growth (often referred to as efficient portfolio management).

We calculate the value of the Fund at 8am daily on working days in the UK. Our dealing times are from 9am to 5pm each working day. Instructions received before 5pm will receive the next available price.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards, lower risk ← → Typically higher rewards, higher risk

- The share class is ranked at 5 because it has experienced medium to high levels of volatility over the past 5 years
- The value of your investment and any income from it is not guaranteed and can go up and down depending on investment performance. Specific investment risks for the Fund are:
 - Company shares ('equities') generally offer higher long term growth potential than some other asset classes. Values can fluctuate considerably. There's a greater risk you might not get back all of your money.
 - Investing in a limited number of company shares can carry more investment risk than in a wider portfolio. If any of these investments fall or rise in value, it may have a greater effect on a fund's overall value than if a larger number of investments were held.
 - Exchange rate changes might cause the value of overseas investments and any income from them to go up and down.
 - The use of derivatives for Efficient Portfolio Management might not achieve the described outcomes and may result in greater fluctuations of the value of the Fund, however it is not intended that this will cause the risk profile of the Fund to change.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	1.07%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The ongoing charges figure is based on the last year's expenses and may vary from year to year. It excludes the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- There is no charge to switch into this fund.
- The Ongoing Charges Figure (OCF) is as at 30/11/2025.
- The annual report for each financial year will include detail on the exact charges made.
- The OCF is taken from the income of the Fund. For more information about charges, please refer to the Prospectus of Scottish Widows Overseas Growth Investment Funds ICVC, which is available at www.scottishwidows.co.uk/kiids

Past performance

	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025
Fund	28.2	12.0	-7.7	19.8	17.6	21.5	-7.1	13.6	20.2	14.3
Benchmark 1 *	28.7	13.2	-3.8	23.2	16.0	23.2	-5.3	18.8	23.2	17.3

- You should be aware that past performance is not a guide to future performance.
- Fund launch date: 14/02/1986.
- Share/unit class launch date: 14/02/1986.
- Performance is calculated in GBP.
- Performance is net of charges and net of tax.
- The Index plus outperformance target and the Fund performance figures are shown on an annual basis.
- In practice, as explained in the 'Objectives and investment policy' section, the Fund's outperformance target applies over a rolling 3 year basis.
- In addition, the Index plus outperformance target is calculated without deduction of charges whereas Fund performance is calculated after deduction of charges.
- The returns shown in the performance table illustrate past performance of the Fund and its benchmark index. The outperformance target is applied to the index and we illustrate it in the figures from 07/08/2019 onwards. Prior to this date the Fund aimed to outperform its benchmark.
- * Benchmark 1 – Benchmark
