SVS Aubrey China Fund I Accumulation Shares GBP [ISIN: GB00BNDMHW43]

The Fund is a sub-fund of SVS Aubrey Capital Management Investment Funds.

The Authorised Corporate Director of the Fund is Smith & Williamson Fund Administration Limited, part of the Smith & Williamson group.

Objectives and investment policy

The Fund aims to achieve capital growth over the long term (5 years plus) and will invest at least 80% in shares of Chinese companies.

These are companies which are quoted and listed on Chinese Stock Exchanges, including in A-Shares and B-Shares of such companies or which have their headquarters or a significant part of their activities in China but which are quoted on a regulated market elsewhere, as well as others which are, in the Investment Manager's opinion, Chinese businesses.

The Fund may also invest in:

- transferable securities (including but not limited to shares and bonds issued by governments and other organisations)
- cash deposits and money market instruments
- warrants
- other investment funds

The Fund may be invested in any industry sector with the Investment Manager's focus on growth companies expected to deliver increasing revenue and profit from the expansion of their business over the medium to long term, with a market capitalisation of at least \$500 million.

As part of its investment process, the Investment Manager integrates environmental, social and governance ("ESG") factors into its routine analysis.

Any income the Fund generates will be re-invested.

You can buy and sell shares Monday to Fridays excluding UK public and bank holidays.

The Fund may use derivatives for efficient portfolio management (EPM), i.e. to protect against market or currency movements, to reduce cost or to earn income or capital.

The Fund is actively managed, which means that the manager has discretion over the composition of its portfolio, and the Fund is not tracking a benchmark nor is the Fund constrained by the value, price or components of a benchmark or any other aspect. The Fund is also not aiming to match or exceed the return of any benchmark.

For full investment objectives and policies details please refer to the Prospectus.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

- The Fund is in a higher category because the price of its investments are expected to rise or fall frequently and more dramatically than some other types of investment. The category shown is not guaranteed to remain unchanged and may shift over time. Even the lowest category does not mean a risk-free investment.
- The price of the Fund and any income from it can go down as well as up and is not guaranteed. Investors may not get back the amount invested. Past performance is not a guide to future performance.
- The Fund may invest in China A-Shares through the Shanghai-Hong Kong Stock Connect and the Shenzhen-Hong Kong Stock Connect programmes (the "Stock Connect"), this allows foreign investors to trade certain Shanghai Stock Exchange or Shenzhen Stock Exchanges listed China A-Shares through their Hong Kong based brokers. Please see the prospectus for full details on the risk factors associated with investing via Stock Connect.
- Investments in emerging markets may involve greater risks due to political and economic instability and underdeveloped markets and systems. This means your money may be at greater risk of loss.
- The Fund may invest in companies where the ownership rights may be uncertain and development of the resources themselves may be subject to disruption due to factors including civil disturbances, industrial action, interruption of power supplies, as well as adverse climatic conditions.
- The Fund is entitled to use derivative instruments for EPM. Derivatives may not achieve their intended purpose. Their prices may move up or down significantly over relatively short periods of time which may result in losses greater than the amount paid. This could adversely impact the value of the Fund. The organisation from which the Fund buys a derivative may fail to carry out its obligations, which could also cause losses to the Fund.
- The Fund may hold a limited number of investments. If one of these investments falls in value this can have a greater impact on the Fund's value than if it held a larger number of investments.
- The Fund may invest in securities not denominated in sterling, the value of your investments may be affected by changes in currency exchange rates. For full details on risk factors for this Fund, please refer to the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	1.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	1.00%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The ongoing charges figure is estimated because the share class has insufficient track record for us to calculate it exactly. The ongoing charges figure may vary from year to year and will exclude the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- The ongoing charges figure is capped at 1%.
- A dilution adjustment may be applied to adjust the price of shares, as it may be necessary to reduce the difference between the cost of buying or selling the Fund's investments and the Fund's mid-market share price.
- The redemption charge is 1% for shares held for less than one year.
- For further information about charges, please refer to relevant sections in the Fund's Prospectus.
- The Fund's annual report for each financial year will include detail on the exact charges made.
